Attention: Mr. Kurt E. Warner

Dear Sir:

Re: Canadian Patent Application  
MARQUEE

We now have completed preparation of your application and have pleasure in enclosing the following documents:

- A. Your file copy of the specification and drawings for your study and approval.
- B. A Petition for the Canadian Patent Office to be signed by applicant.
- C. A Canadian assignment and declaration document in duplicate transferring ownership of the invention from the inventor to applicant. Both copies should be signed by the inventor in the presence of a witness who should then complete the declaration form where indicated.

With regard to the small entity fees as mentioned on the Canadian Petition, which will allow you to pay reduced government fees, the rules are complex but basically you can pay such reduced fees if you are an individual who has not assigned or licensed the invention to a company or if a company is involved then if it has a gross annual revenue less than the amount of \$2,000,000.00 and if it employs less than fifty persons.
